ON THE COVER

With a little touch of sand on the rails and a skilled hand on the throttle a pair of Union Pacific F7s come growling upgrade. Slugging it out with time and gravity, all 3000 horses are pulling hard, sending the steady roar of the 567B prime movers ricocheting all across the mountain peaks and valleys. One of the most popular locos ever built, model or prototype, F7A and B units could be found on active duty from the 1950s to the 80s, and many are the star attraction of museums today. Putting this classic power to work on your own HO railroad is easy with the newest run of Walther'sProto F7s that includes Union Pacific, Santa Fe, Burlington Northern, Canadian National and Chesapeake & Ohio A and B units. Read more at walthers.com.

Paper Work Made Fun!

The job starts at a remote siding, nestled deep in the forest where empty flats and gondolas are soon heavy with fresh-cut pulpwood logs. Boxcars take over for the next leg of the trip, ferrying huge rolls of paper from mills to printing plants all across the country. From there, hard working locals and wayfreights ease up to rail docks, spotting loads and picking up empties to begin the cycle once more. Paper traffic will add a lot of variety to operations, and Walthers makes it easy to model at every step of the way! Here you can see the “business end” of the new Modern Concrete Printing Plant, the latest HO kit in the Cornerstone® Modern Industrial Park series, which includes the air cleaner and dust collector cyclone as shown and both will also be available separately! Add the finishing touch with WalthersProto® power like the GP35 and WalthersMainline® Boxcars and you'll be looking forward to doing “paper work!”

A Note on Availability

At Walther, we strive to provide you with the widest variety of product possible. In order to achieve this goal, we maintain significant inventory on site. Despite our best efforts to have every item you could possibly need in house at all times, it is not realistically possible to do so. For your convenience, we do our best to promote items that are in stock and to clearly label other items—those that are new and available for Advance Reservations or items that are low in stock and have Limited Quantities Available when the Flyer goes to press. At times, we experience a quick sell out on a particular item or unexpected demand for an item that we believed to have sufficient stock in house. In many cases, items can be back ordered for future delivery. In other cases, we are unable to secure more of a particular item. For the most up to date availability information, we encourage you to check walthers.com, email us at custserv@walthers.com or call our Customer Service Team at 1-800-4-TRAINS.

Please know that we appreciate your support of both Walther and your Local Hobby Shop. We are committed to making this Flyer a valuable part of your model railroading.

60' Pullman-Standard Flatcar

June 2018 delivery • \$27.98 each

- Based on 4000+ cars built by Pullman-Standard in service from mid-1960s to today
- Backbone of TTX 60' flatcar fleet - similar cars used by many railroads
- Used to ship all types of general freight as well as auto/truck frames, canisters, farm equipment, construction machinery, military vehicles, containers, logs, lumber & building materials, 20 & 40' containers and 45 & 48' trailers
- Superbly detailed decks match 4 different prototype configurations with:
 - Correct board pattern with realistic wood grain & bolt details
 - Brake wheel cutout as appropriate
 - General service (MTTX)
 - Heavy-duty loading (HTTX with 2 center & 2 outside tie-down channels)
 - Rebuilt for 20 & 40' container loading with side-mount lever-style brake wheel (VTTX)
 - Trailer version features hitch & rails
- Hidden weight for improved looks & performance
- Detailed brake gear with piping
- 70-ton roller bearing trucks
- Correct 33" turned metal wheelsets
- Proto MAX™ metal knuckle couplers
