Big sale on CONTAINERS!

SALE ENDS 10-15-2017

Find a Hobby Shop Near You! Visit walthers.com or call 1-800-487-2467
Start your modeling on the right track this fall with the latest Walthers new products announced at the National Train Show, super prices and much more in this issue.

HO modelers are buzzing about our new UPS® series that includes two new Cornerstone® structure kits, 20 SceneMaster™ vehicles and a brand new set of figures. See the ad on page 4 inside and visit walthers.com/ups for more details.

We’ve made a great model even better. Check out the newest HO WalthersMainline® ML-8 Switchers, and the DCC versions now featuring an ESU control-only decoder on page 6.

Tackle N Scale switching chores of any size with the newest WalthersN™ SW1200 diesels. Turn to page 7 for a complete list of features and roadnames.

You’ve asked and WalthersProto® delivers an all-new HO model of the Jordan Spreader. See our first preproduction sample and check out the many features on page 8.

Bring your favorite modeling era to life in HO with the latest WalthersMainline freight cars, including newly-tooled 50’ Exterior-Post Mechanical Reefers, Thrall Rebuilt 40’ Well Cars and 39’ Trinity 3281 2-Bay Hoppers. Listings start on page 9.

Build realism into your layout with the all-new Modern Shopping Center in HO and Central Beverage Distributors in N. Check out these Cornerstone kit listings on page 13.

Find out more about these new models at walthers.com, by calling 1-800-487-2467 or visit your participating hobby shop to reserve any product in this issue.

Happy modeling!

Phil Walthers
The need for speed

That's the last of 'em. Connectors locked, blue flags down, air test complete and with a highball to the head end crew, another intermodal train is outbound from this bustling terminal. From ship to shore to road to rail, speed and efficiency are the hallmarks of the folks who keep intermodal moving worldwide. From the first experiments in the 1950s, to the modern mile-long hotshots of today, intermodal traffic has always demanded the newest and best equipment available. No matter your modeling era, bringing the color and action to life is easy with Walthers products. Check out our growing selection of models in HO and N Scales at walthers.com, including the brand new WalthersMainline Thrall Rebuilt 40' Well Cars on page 10 inside!

WLTHERS LAYOUT CONTROL SYSTEM
Low-cost solution for easy turnout control in HO, N, Z, S and O Scales!

- Expandable at any time – grows with your layout
- Use with DCC- or DC-powered layouts - includes built-in DCC accessory decoder
- Plug & play RC servo-style wiring with connectors - no cutting or soldering needed!
- User-friendly instructions with illustrations & drilling templates simplify installation & operation

- Mix & match components to customize your system using:
  - Servo-based slow-motion Switch Unit
  - Power Distribution Block
  - LED panel indicator/control pushbutton switches
  - Add-on system cabling
  - 3-Piece Drill Set
  - 2 Amp Power Supply
- February 2018 delivery for all items

Switch Machine
942-101  $24.98

- Fully assembled, servo-based slow-motion unit with approximately one second throw speed
- Two built-in 5A switches to power frogs, signals and more
- Default values include advanced programming for:
  - Variable speed from .5 to 5 seconds
  - Reversible from standard position
  - Remote lock input for CTC dispatcher to enable/disable local turnout control
  - Single/Alternate bi-color LED modes
  - Polarity route control
- Self-locking mechanism for reliable positioning - power off when motion is completed
- Adjustable output throw from 1/32" to 1/2" (1mm to 12mm) for turnouts in any scale from Z to O
- Factory-assembled with output rod in centered position for fast & easy under-benchwork mounting
- Wire in minutes with included cables
- Outputs for both single or bi-color LEDs
- Complete instructions with mounting template – use with Layout Control System Turnout Drill Set (#942-140, sold separately)

Visit walthers.com for more information about the new Walthers Layout Control System.

Visitors to the National Train Show had a chance to see this new Walthers Layout Control System display in operation, showcasing a typical layout installation of components, controls and turnouts - check out the video online at walthers.com for a demonstration!

A Note on Availability
At Walthers, we strive to provide you with the widest variety of product possible. In order to achieve this goal, we maintain significant inventory on site. Despite our best efforts to have every item you could possibly need in house at all times, it is not realistically possible to do so. For your convenience, we do our best to promote items that are in stock and to clearly label other items—that are new and available for Advance Reservations or items that are low in stock and have Limited Quantities Available when the Flyer goes to press. At times, we experience a quick sell out on a particular item or unexpected demand for an item that we believed to have sufficient stock in house. In many cases, items can be back ordered for future delivery. In other cases, we are unable to secure more of a particular item. For the most up to date availability information, we encourage you to check walthers.com, email us at custserv@walthers.com or call our Customer Service Team at 1-800-4-TRAINS.
Please know that we appreciate your support of both Walthers and your Local Hobby Shop. We are committed to making this Flyer a valuable part of your model railroading.
